Spill / Leak Solutions

Sorbents

Sonic bonded (meltblown) sorbents have been the mainstay of the sorbent industry for years. Constructed from a single layer of polypropylene fibers which are sonically bonded together for added strength and reduced linting. Well suited for a variety of spill control and industrial clean-up situations.

Part #: UP118-9 - 15"x18", 100/bale
Grey - **Universal**
Medium Weight

Whether the spill is large or small, on land or on water, our meltblown pads are perfect for oil spill clean-up. These cost-effective sorbents are constructed from a single layer of strong, uniform polypropylene fibers. Hydrocarbon based fluids stick to the fibers while water is repelled.

Part #: EP100 - 15"x18", 100/bale
White - **Oil Only**
Medium Weight

Spill Kit

If you are looking for a spill kit that is economical, practical and can "be there when you need it", then this is the kit. Great for cars, service vehicles, and can even be strategically placed through-out manufacturing facilities. Comes in a highly visible yellow nylon bag and can handle small spills of any kind.

Part #: CSKYB5U - Universal

Roof Leak Diverter

Catch Roof Leaks and Divert Them Away from Offices and Equipment

Large, vinyl-coated fabric catches roof leaks and channels them to standard hose hook-up. Hose can then be directed to proper drainage point. The lightweight material is also flame retardant. Heavy-duty D-rings securely attached in each corner make installation quick and easy.

Part #: 2525 2.5' x 2.5'
1785 5' x 5'
1787 10' x 10'

Pipe Leak Diverter

Channel Pipe Leaks away from Plant Personnel and Machinery

Great for redirecting fluid leaks off the floor, and eliminates slip hazards and chemical exposure. Made of a rugged coated vinyl, the large 18" diameter opening captures overhead leaks. The bottom fitting connects to a standard garden hose which allows fluids to be directed to drums or tanks. Ships complete with bungee cords and hooks for quick installation.

Part #: 1780 18" dia. X 18" H
