

NEW SORBENT TECHNOLOGY

COLDFORM™ PADS AND ROLLS - NATURAL

Cold Form natural sorbents offer outstanding absorbency and durability at an unheard of value. Each product is constructed from a single layer of extremely fine natural fibers that are point-bonded together. Its performance is enhanced by the addition of proprietary chemistry and minimal use of synthetic fibers. Oil only are offered in natural white with additives that maximize the fibers' water repulsion, flame resistance and protect against microbes such as mold. Universal sorbents are offered in gray and have similar additives to enhance their performance.
